High School Inclement Weather/Remote Learning Plan

If RCS closes for Inclement Weather and deems the day as a "Remote Learning Day" for students, these will be the expectations for High School Students:

Class	Assignment/Expectation to be completed by the student
ELA (if you are not enrolled in ELA this semester you do not do this!)	**If you have power/access to Newsela:** Complete 30 minutes of reading or 3 articles of your choosing and complete the quizzes. (They may not be the same articles as ones you chose for another class). **If you do not have access to Newsela:** Select one of the prompts to prepare a one-page paper. Be sure to use correct grammar, punctuation, and paragraph structure. - How have snow days changed for you since elementary? How does this relate to your elective classes? - Describe what you want your life to be like in 5 years? What goals do you have? What are you doing now that will help achieve them? What are you doing now that may be holding you back? - Describe one thing that we could do at RHS to support your learning and help make RHS even better. - How has social media affected your life? What are some positive things that you have gained through all the different platforms? What are some problems/dangers that you see impacting you negatively? - What piece of entertainment (song/tv show/movie/video game) do you think best reflects your personality and beliefs? If you could only have one thing to describe who you think you are, what would it be? Why?
Math (if you are not enrolled inMath this semester you do not do this!)	**If you have power/access to IXL**: Complete 30 minutes of your recommendation sections under the Learning tab in IXL **If you do not have access to IXL**: Create **five** math problems of the current math skill you are studying in your math class. Solve each problem and show your work.

	Evaluate the expression.
	
	14. $8 - 6 + 4$
	
	15. $16 \div (4 - 2) - 3$
	
	16. $49 \div 7 + 3 \cdot 6$
	
	17. $4[(29 - 12) + 10]$
	
	     18. $\frac{1}{2} \cdot 18 - 3^2$
	
	  ○

Social Studies (if you are not enrolled in Social Studies this semester you do not do this!)	● **If you have power/access to Newsela:** Complete 30 minutes of reading or 3 articles of your choosing and complete the quizzes. Try to pick a "Social Studies" topic. (They may not be the same articles as ones you chose for another class). ● **If you do not have access to Newsela:** Write a one-page paper describing what a "Snow Day" would have been like 100 years ago. Be sure to use correct grammar, punctuation, and paragraph structure.
Science (if you are not enrolled in Science this semester you do not do this!)	● **If you have power/access to Newsela:** Complete 30 minutes of reading or 3 articles of your choosing and complete the quizzes. (They may not be the same articles as ones you chose for another class). Try to pick a "Science" topic. ● **If you do not have access to Newsela:** Make two graphs. One graph should record the temperature for the day and the other graph should record any amounts of precipitation. You need a **morning**, **mid-day**, and **evening** reading on each graph.
Elective Courses	● **Read the assigned article and write a paragraph about how the article impacts the perspective of their related field.** **Article Linked Here:** -Marketing Consultant: -Web Designer: -Interior Designer: -Financial Advisor: -Restaurant Owner: -Nurse or medical professional: -Farmer or Vet: -Automotive Mechanic: -Firefighter or EMT: -Military Member:

	-Performer (band, theatre or chorus): -Artist: -Professional Athlete:

* These assignments will be collected by your Core teachers and credit will be given for completion.

* Attendance for the day will be determined based upon the completion of the work.
*Be sure to check your RCC email for information on your college classes.
